Putting out of view the constitutional question, and regarding this as a military offense—the killing of a Commander-in-Chief in the midst of his forces—yet public opinion would be better satisfied by a trial under the forms of law. Bodies Found -Oa Wednesday evening the bodies of Mr. Davit and wife, of Covington, who committed suicide about ten days ago, by jumping into the Ohio river from one of the ferryboats, were found near Rising Sun, Indiana. The mystery connected with the melancholy suicide of these parties is almost equaled by the singular circumstance of the bodies being found within a few feet of each other, and at the same time, after being swept down the river for so many miles.

The make it the most convenient and best form of personal property, is a modern wonder. The debt of Great Britain was begun by raising a million sterling by Icaa in 1692, and when her great contest with Louis XIV was termirated, the debt had reached fifty millions. Many at the great burden which had been imposed upon the incustry of the country; but when the war of the Austrian succession had swelled this amount to eighty millions, Macaulay says that historians and orators pronounced the case to be desperate. But where war again broke out, and the national debt was rapidly broke out, and the national debt was rapidly carried up to one hundred and forty millions, men of theory and business both pronounced that the latal dsy had certainly arrived. We are gratified to state that coal has money and labor of the old countries pouring into the lap of our giant and ever-to-be-united republic. During the fiercest and most exhausting of all possible were, we have demonstrated our national strength is but another name for national credit. "As good as United Stocks" will soon be syncutymous the world over with "as good as British Consols."

For our part, we think a U S Treasury note, bearing seven and three-tenths annual interest, is just as much better than British Consols."

Gold Clesed To-Day in N. Y. at 129.

NEW YORK; May 12. This morning the stock market was better thun yesterday. There was a sharp demard for leading stocks, to which the bears respond-ed very feebly, and prices rose from 1 to 32, per cent. Later in the day the bears threw considerable stock on the market and brought prices down somewhat. On the 15th of this month the bears will have to deliver a very large amount of stock, sold from 20 to 40 per cent below the present quotatious. They iderable cotton is still lying at the river landings, but large quantities were taken into the niterior from Mobile, to prevent its being very heavy losses. Government stocks are that the large quantities were taken into the their coming out of the corner without very heavy losses. Government stocks are ist, the large subscriptions to the 7,30s vert attention from all other bonds and

partially depress prices. State bonds quiet and firm. Coal and other stocks better. Rall road mortgages steady. The gold market is active this morning, but quiet in the evening. The gold and stock rates have been brought to sympathise with each other, by a shrewd maneuver of the bear, and hence it is an easier matter to bring down prices than formerly.

Money is in good demand, but quiet and

easy at low rates.

NEW YORK, May 12 The daily papers continue to present against a secret trial of the conspirators, and some of them have long editorials on the subject. The World's Washington special says: It will be difficult to establish a case against rominent persons—named as assassinc. The trial, it is thought, will be very long. It is believed the trial will not be concluded before

the 1st of August, as there are some 300 wit-nesses to examine in the cases of a large numper of conspirators. A man supposed to be Surratt was arrested near Chembersburg, Pennsylvania, but turns out to be a conspirator of any kind; though there is reason to believe that he is a fugitive Herald says the Mexican emigration fe

The Herald's London letter says the French expedition, composed of four thousand French troops and as many Belgians, has atarted for lower California and Sonora. The trial of Mrs Bessie Pevun, of Baltimore. was resumed to-day before the court martia of which Gen Chapman is President and Col Chapman Judge Advocate, Mrs. Persun i charged with assisting the rebel cavalry in plundering the train between Biltimore and Philadelphia during the raid of General Early last summer. Among the witnesses for the prosecution was Mr. A. C. Perry, who was on the train at the time of its capture. He testified that when passengers were ordered to leave the cars he saw Mrs. Perrin shaking leave the cars he saw Mrs. Perrin shaking hands with the rebels and seemingly very much pleased. She also pointed towards a trunk which the rebels broke open.

Chas, Fisher, first assistant engineer of the navy, not only saw Mrs. P. welcome the rebels but kies one of them. She said she was glad they had come or that she had expected them and pointing out the baggage told the rebels that it belonged to Yaukee officers. Tribune's special says Chief Justice Chass is at Wilmington, where several citizens from different parts of the State met him for consultation. The temper of the masses in N. DEPARTURES.-United States, for Cincinn t. Nickolas, for Cincinnati; General Buell, for Cincinnati; Blue Wing. No. 3, for Kentucky river; Morning Star, for Henderson; Indiana, for New St. Louis.

-The river at this point continues to rise mor rapidly than we have ever known it to do, and last vening there was about twenty-two feet water in N V. Press en Trial of Conspirators | ter on the falls to allow the largest steamers to pass either up or down. The rise at the head of the falls during the previous twenty-four hours had been about six feet, or twelve feet at Portland, which is an unprecedented rise in the present stage of water. The weather was clear and pleasant. Wednesday night, or rather early yesterday morning, we had a heavy white frost.

-The river at Cincinnati at noon yesterday had risen five feet in the previous twenty-four hours, and still rising at the rate of three inch hour, with forty-six feet six inches in the channel hence to this place.

-At Pittsburg at noon yesterday the river wa stationary, with fifteen and a half of water in the channel by the pier mark. -The officers of the Kentucky river packet Blu

-From all that we can now learn we fear that re are to be visited with another flood, which will be more destructive than the former one. The late rains have extended along the entire course of the Ohio river and its tributaries, all of which a now swelling quite fast. Below Fourth street th water, last evening, lacked but little of reaching the curbstones, and it will no doubt reach th houses by this evening. Our readers living along

the river should be prepared for a big flood. -The Bermuda, from this place, and Starligh rom Cincinnati, reached Nashville Thursday, and ivilian, for Cincinnati, departed the same day. -The Indiana reshipped her Cincinnati freight the Peoples' line and returned to New Orlean arly yesterday morning, having a large lot of freight engaged along the route.

-Yesterday was a very pleasant day and busi hess looked more brish at the city wharf. The boats advertised to leave are having moderate trips. -The G. W. Graham has made her last trip Memphis for the present, having been chartered by Captain John G. Copelin for a mountain trip of

four months. She will leave Memphis in a fev days. -The Missouri is rising. At Leavenworth had risen one foot up to Weduesday morning. Th Sam Gaty, bound to Fort Benton, ou the Missouri passed Sioux City on the 2d inst.

-The S. B. Young arrived at Memphis from the Yazoo river on the 7th with a full lead of cotton over eight hundred bales. The officers of the beat report everything quiet along that stream They saw plenty of rebols, but they did not inter fere with passing steamers. He reports the Cumberland river rising when they left, with five feet water on Harpeth Sheals, and also having net a heavy rise in the Ohio all the way from Smithland. THE, JONES, Secretary. FINANCE AND TRADE

OFFICE OF THE LOUISVILLE DEMOCRAT. FRIDAY EVENING. May 12th, 1865.

The markets hinge on the gold question; therefor terest is centered in the quotations for coin. As the emium rises or falls, the prices of commodities go u down, but more the latter than the former, because the general impression is that we are tending steadily toward a lower level that shall be permanent; that is, a level from which price will not be floated by a sweeping eculative movement in gold. In all the markets, mers are supplying themselves from hand to mouth; and this, so far as regards speculative movements causes trade to drag. This will be the case until th remium on gold reaches a point in the downward scale. elow which it will not be likely to go, and prices of mmodities are adjusted thereto. The public mind hus satisfied, business will feel the effect of the great ndance of money, and speculations then will turn on the probable duration of the paper money inflation In flour we have no special change to note, unless it is more activity in the market, the sales to-day reaching about 200 bbls at \$6 50@8 for superfine and extra fam ily.
